DETAILED ACTION

1. The following species election is necessitated by the amendment filed 5/6/02.
2. Claims 1-3, 7-8, and 11-107 are pending.

Species Election/Restrictions

1. The applicant is further required under 35 U.S.C. 121 to elect:
A specific population of conjugate comprising (1) a **specific antigen** such as the ones recited in newly added claims 87-89, 90, 92, 93, 96, 97, 98, 100, 101, 102, and 103 and (2) a **specific immunostimulatory sequence (ISS)** such as the ones recited in newly added claims 46, 48, 49, 51, 52, 56, 58, 59, 61, 62, 67, 69, 72, 73, 79, 81, 82, 84, and 85. These populations of conjugate comprising different antigens such as the ones recited in claims 87-89, 90, 92, 93, 96, 97, 98, 100, 101, 102, and 103 are patentably distinct because these antigens differ with respect to their structures, physiochemical properties and mode of action; the **specific immunostimulatory sequences (ISS)** differ with respect their structures and nucleotide sequence. Therefore, they are patentably distinct.
2. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 11, 25, 63, and 75 are generic.
3. Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.
4. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 C.F.R. § 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. M.P.E.P. § 809.02(a).

Art Unit: 1644

5. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. § 103 of the other invention.
6. Due to the complexity of the claimed invention an oral restriction was not made.
7. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
